

A sophisticated look with OSRAM DECOPIN™

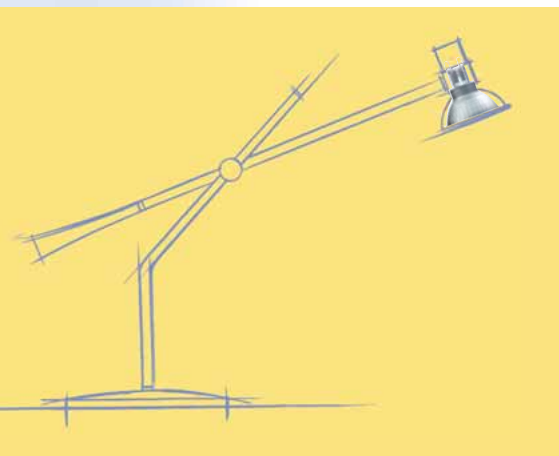

The smallest halogen reflector lamp in the
world, for luminaires without transformers.

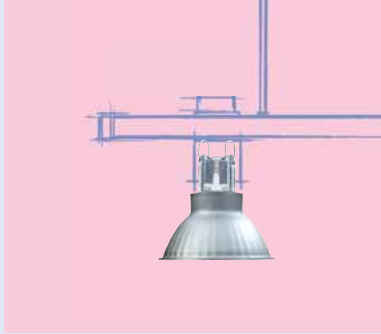

SEE THE WORLD IN A NEW LIGHT

OSRAM

**OSRAM DECOPIN™ –
for new exciting
lighting solutions.**

Perfection in a miniature form

Once more, OSRAM is setting the benchmark regarding trends and standards in the lighting market.

DECOPIN™ is the smallest and lightest mains voltage halogen lamp from OSRAM and is equipped with a high-quality aluminium reflector. We are therefore continuing the trend towards miniaturisation and can offer you as a luminaire manufacturer new possibilities for developing attractive and creative compact lighting solutions.

More options: small, lightweight, strong.

Weighing just 8.5 grams and with a diameter of around 4 cm, the OSRAM DECOPIN™ is ideal for designers to create small stylish halogen luminaires

of minimalist and chic design. And they are more cost-effective and offer greater design freedom because there is no need to incorporate a transformer in the design.

**Only from OSRAM:
aluminium reflector
and G9 included.**

The tiny OSRAM DECOPIN™ has so many benefits including a refined faceted aluminium reflector, highly polished inside and matt outside. The OSRAM DECOPIN™ has also a G9 plug-in base system which is extremely easy to use and which is now in use throughout the world.

Outstanding quality: safe, innovative and compliant

The OSRAM DECOPIN™ is fully dimmable, made from UV-FILTER quartz and can be used in unshielded luminaires to IEC 60598-1. It even meets the strict

safety requirements of IEC 60432-2. The OSRAM DECOPIN™ has an integral safety fuse so the light “goes out” gently and safely when the lamp comes to the end of its life. This is innovative quality made in Germany!

All the benefits of the OSRAM DECOPIN™ at a glance:

- Smallest mains voltage reflector lamp in the world
- Weight: only 8.5 g
- Maximum diameter: 41.5 mm
- No transformer required
- G9 base
- Meets the safety requirements of IEC 60432-2

High-quality aluminium reflector

Fully dimmable

UV FILTER technology

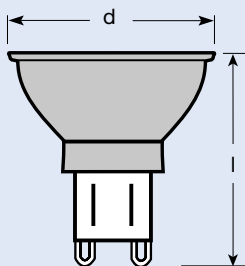

Can be used in open luminaires to IEC 60598-1

Patented bulb pinch technology

Technical data

OSRAM DECOPIN™

Product no (EAN)	4008321 907189
Rated wattage	40 W
Voltage	230 V
Luminous intensity	550 cd
Beam angle	40°
Colour temperature	2800 K
Average lamp life	2000 h
Diameter d (max.)	41.5 mm
Length l (max.)	43 mm
Weight	8.5 g
Base	G9
Standard pack/pcs	20
